

METAPONTO Golf Club

www.rivadeitessali.it

Golf of Metaponto is located in the charming countryside of Metaponto, on an area with an historic and ancient past and home to many artistic and archaeological treasures.

The golf course is located in the secular pine-forest that borders both the sandy beaches of the Ionian Sea and the hilly, picturesque landscapes of the Lucania region. Mild climatic conditions make it possible to enjoy a golf vacation here year-round, in the quiet and peaceful surroundings. Located in the heart of a truly captivating archaeological area, the delightful Club House is a former 19th-century farmhouse, its 70 hectares of land converted to an 18-hole championship golf course.

None of the guest-rooms are alike in a layout but they are all quiet and exclusively furnished with antique furniture, they are equipped with air-conditioning, bath with whirlpool, private telephones, satellite television, mini bar and safety deposit box.

All of the rooms have a large private terrace that overlooks the green golf course, the view extending all the way to the blue ocean and its coast.

An 18-hole championship golf course built as a complement to Riva dei Tessali, Metaponto extends over a surface area of 6,284 meters, par 72, RS 130. Set in and around citrus and olive groves, with wide fairways, undulating greens and strategically interspersed bunker and water hazards, the course offers a striking contrast to the Riva dei Tessali layout. Boasting an excellent spacious driving range and short game facility as well as a beautifully renovated Club House (formally a farmhouse), Metaponto is the ideal course to play between rounds at Riva dei Tessali.
